

Dear Parents of rising 7th graders,

With just a few minutes of math work per week, student will be able to maintain what they've learned! This summer students will again use IXL for math practice. Students used IXL throughout this past school year and should be familiar with its setup. The instant feedback feature ensures students practice correctly and build confidence. Teachers will have access to analytics on each student's progress throughout the summer. Please follow the instructions below: The goal is for students to spend 20 minutes three times a week.

Log in to IXL at www.ixl.com/signin/stjosephherndon

Click on the Math 6 tab to review skills listed below.

Mixed operations

[Add, subtract, multiply, or divide two whole numbers](#)

[Add, subtract, multiply, or divide two whole numbers: word problems](#)

[Evaluate numerical expressions one step at a time](#)

[Evaluate numerical expressions involving whole numbers](#)

[Identify mistakes involving the order of operations](#)

[Add, subtract, multiply, or divide two decimals](#)

[Add, subtract, multiply, or divide two decimals: word problems](#)

[Evaluate numerical expressions involving decimals](#)

[Add, subtract, multiply, or divide two fractions](#)

[Add, subtract, multiply, or divide two fractions: word problems](#)

[Evaluate numerical expressions involving fractions](#)

[Add, subtract, multiply, or divide two integers](#)

[Evaluate numerical expressions involving integers](#)

We look forward to seeing you soon!
